

DOI Work Activity F6: Assess Alaska Minerals

Program Area:	Resource Use – NON-ENERGY MINERALS
End Outcome Goal:	UEO 3 – LAND-RELATED RESOURCES – Manage or Influence Resource Use to Enhance Public Benefit, Responsible Development, and Economic Value
Intermediate Outcome:	This activity does not align to an intermediate outcome
DOI Sub process:	4b – Conduct inspections to ensure appropriate use

Examples/Notes: This activity applies only to BLM

Work Activity Description: Report all procurement and labor costs related to Alaska mineral inventories and assessments of resources on special issues or within assigned geographic areas.

Special studies/assessments are performed to establish baseline data concerning the quantity, character, economic, and environmental aspects of mineral resources on public lands.

Output: Sites investigated	Unit of Measure: Number of sites investigated. Report one unit of accomplishment for each site/reconnaissance area investigated. Accomplishments shall be reported into MIS. Reporting to the Washington Office on major studies should be accompanied by a narrative description report through the budget feedback process. Local field offices will be required to track and report their progress. Major projects will be expected to produce annual and final reports describing results of investigations.
Inputs:	Cost Drivers:

System Interfaces: Alaska Minerals Information Data Base will be updated and queried after the end of each field season to verify units reported in MIS.
